iZi-range

In addition to the versatile beMatrix® frame system and its endless options, we now also offer the iZi-range: modular furniture such as bars, tables, displays and signage to add that final touch to your exhibit. The iZi furniture boasts the same features as our frame system: it is modular, ideal for temporary constructions, customizable with plain or printed panels or fabric, and very fast to assemble.

iZi-range 1/FURNITURE

iZi-bar

Body

The **iZi-bar** is a versatile reception desk that can be used just for that particular purpose, but also serve as a bar or cupboard. Its very stylish design is the result of using lightweight aluminum profiles. The iZi-bar contains 2 shelves and removable doors with lock and feet that can be adjusted in height. You can choose from panel or fabric infills which makes it quick and easy to customize the iZi-bar exactly to your client's liking...

DIMENSIONS: 992 X 620 X 992 MM
STANDARD FINISH: RAL 9006 TEC
AVAILABLE ON DEMAND IN ALL RAL COLORS
ACCESSORIES: 2 SHELVES, ADJUSTABLE FEET AND REMOVABLE DOORS WITH LOCK

Doors

The **iZi-bar** comes standard with simple removable doors that have a lock, making sure everything is safely stored. By not using the doors, you can integrate a refrigerator or other kind of appliance in the bar.

Combination lock

A handy combination lock ensures everything can be put away safely. No more stress about losing keys anymore!

Shelves

The flooring and shelf are a part of the standard package. Both are removable and the shelf is adjustable in height.

Feet

The 4 feet, all individually adjustable, are ideal to stabilize the iZi-bar on uneven floors. When the feet are fully integrated, the actual base of the iZi-bar itself rests on the floor.

iZi-bar

Skin

You can finish your **iZi-bar** any way you like. Would your customer like to integrate a printed aluminum sandwich panel, blank PVC panel or personalized infill? No problem at all.

Top

The top can be ordered alongside the iZi-bar 'body' and is available as a black/white solid wood panel.

DIMENSIONS: 992 X 620 X 10 MM

Panel

Do you prefer an aluminum sandwich panel or a PVC panel, with or without print? The choice is yours.

Seamless textile

For a seamless result, cover the 3 sides with infills. This principle can also be applied to several iZi-bars that are joined together.

iZi-bar

Modular iZi-elements

The iZi-range is based on the same DNA as the beMatrix® frame system. Modularity and flexibility are pivotal. You can change the iZi-bar in no time at all to a different bar structure, simply by adding an additional modular element.

Barfly

Add one or two **barfly** elements to the iZi-bar for a dynamic look. A real transformation with hardly any effort.

DIMENSIONS: 992 X 620 MM - R 496
STANDARD FINISH: RAL 9006 TEC

Front

Back

iZi-bar Corner

The **iZi-bar Corner** is a great solution to create that perfect corner, even elongating your bar. A perfect fit!

DIMENSIONS: 620 X 620 X 992 MM
STANDARD FINISH: RAL 9006 TEC

The iZi-bar Corner can be used perfectly as a stand-alone display.

iZi-bar Elevation

Why not turn the iZi-bar into an even more versatile piece of furniture with the **iZi-bar Elevation**? It's a handy add-on that is also available in a corner set-up to match the iZi-bar Corner. What a clever way to give the iZi-bar a total overhaul!

- DIMENSIONS ELEVATION: 248 X 992 MM
- DIMENSIONS CORNER ELEVATION: 620 X 620 X 248 MM
- STANDARD FINISH: RAL 9006 TEC

iZi-bar with integrated refrigerator

iZi-bar

Endless combinations

Tip: Why not install an indirect light strip around the bar for that floating effect?

iZi-bar

Accessories

f31 - b62® connector

This connector allows you to easily connect the b62® frames to the iZi-bar, opening up all kinds of options to create totally different kinds of furniture or displays.

f31 - b42 connector

The f31-b42 connector enables you to easily connect any special shape in b42 to the iZi-bar.

Universal f31 connector

Using our universal connectors, you can add several elements to the iZi-bar, such as a lightbox or bar element. Fantastic to totally customize your bar.

iZi-range connector

This connector can be used to connect multiple elements (iZi-bars, iZi-bar elements) in a very simple way.

iZi-table

Minimalist look and easy to personalize

Apart from the iZi-bar, beMatrix® also offers a range of **iZi-tables**: ready-made tables or columns that can be covered with all kinds of infills to match the set-up or function of the stand.

iZi-wall table

iZi-tablet holder

Timeless display

Not only does the **iZi-tablet holder** stand out because of its minimalist look, but also thanks to its savvy design providing space for cables and security accessories. The foam protection that covers the back keeps the iPad in position nicely, for optimal reading. Freestanding or secured to the floor? The iZi-tablet holder immediately adds allure to any exhibit.

DIMENSIONS: 240 X 1155 X 362 MM
STANDARD FINISH: RAL 9006 TEC

Tip: The plate with screw holes at the base of the display makes it perfectly possible to secure the iZi-tablet holder onto a raised floor.

8 beMatrix® principles

Quality guaranteed

All beMatrix® frames are manufactured in-house, so we are in control of every step in the production process. Continuous optimization and innovation initiatives ensure the system always complies with the market’s demands.

Freedom to design

A beMatrix® exhibit combines the benefits of a modular system with the possibilities of made-to-measure solutions. Almost any shape, contour and construction is conceivable and can easily be created. One single frame allows you to create all different kinds of stand concepts.

Top finishing

The beMatrix® exhibit building system comes with a large range of tools and accessories to finish your exhibit exactly the way you envisage it. With the infills, the ‘skin’, you can even hide the entire frame system so it becomes invisible to the eye. Thanks to our ‘seamless’ concept, not one seam will be noticeable.

Lightweight

The aluminum frame system is lightweight, hence very ergonomic and eco-friendly. There is no need for the exhibit builder to carry around heavy structures, keeping the transport weight and CO₂ emissions low.

Fast

Assembly and disassembly of the beMatrix® system takes hardly any time. Its weight, simplicity and tool-free assembly save loads of time, leaving you space to focus on the finishing details of your stand. Isn’t that what makes you exhibit out most at a show?

Long life cycle

Our frames can be used up to 200 times, in all kinds of configurations. This long life cycle lowers our demand for raw materials and energy, since less new frames need to be manufactured.

Ecologically sound

The system is extremely sturdy, making it endlessly reusable. Wear and tear won't shorten its life cycle, since the frame is not visible to the eye once the entire exhibit is set up.

International network

Because of its low weight, long life cycle and modular character, the beMatrix® frame system is the eco-friendliest system today. Moreover, it is made out of untreated aluminum so it's 100% recyclable and reusable without any quality losses.
